INDEX TO VOLUME 27

A

Ada, Alexander, E. W. Discussion of problem of hiatus hernia of diaphragm, 10

Alveolar-cell tumor of lungs, fate of patients with (Mears, Kirklin, and Woolner), 420

American Association for Thoracic Surgery, actions taken at Council Meeting, March 30, 1953, 431
list of officers, council, membership committee, and members, 629-640
notice of 34th Annual Meeting, 106, 212, 321
notice of 35th Annual Meeting, 432
program of 34th Annual Meeting, 428

American Board of Anesthesiology, resolutions concerning, 431

American Board of Thoracic Surgery, resolution concerning, 432

Anastomosis, bronchial resection (Gravel), 244

Andersen, Murray N. (with Kaunitz, Victor H.) Experimental study of effect of parasympathetic denervation of lung on pulmonary artery pressure, 55

Anesthesia, intratracheal, bilateral granuloma of larynx due to (Melick, Urry, McAdams), 210

Anesthetic atmospheres as measured by Liston-Becker (infrared absorption) gas analyzer (Siebecker, Mendenhall, and Emanuel), 468

Aorta, coarctation of, persistence of left superior vena cava with (Steinberg, Harrison, and O'Sullivan), 575

Aortic aneurysms, reinforcement by wrapping (Poppe), 36

Artery disease, coronary, fourteen years' experience with cardiopexy in treatment of (Thompson and Plachta), 64

Ashmore, P. G. Papilloma of bronchus, case report, 293

Auricle, management of dangerously torn (Swann, Lomasney, and Rodriguez-Arroyo), 96

Azygos vein, dilatation of, simulating mediastinal tumor (Schmidt), 251

B

Baffes, Thomas G. (with Schlotterbeck, Phyllis, and DeCamp, Paul T.) Comparison of thoracoplasty and resection therapy in pulmonary tuberculosis, 349

Bailey, Charles P. (with Bakst, Alvin A., Costas-Durieux, Jaime, and Goldberg, Harry) Protection of heart by arterialization of coronary sinus. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, 433
II. Coronary flow in dogs with aorticocoronary sinus anastomosis, 442
(with Boulton, Houck E., Costas-Durieux, J., and Gemeinhardt, William) Cardioscopy, simple and practical, 323
(with Cookston, Brian A., Downing, Daniel F., and Neptune, Wilford B.) Cardiac surgery under hypothermia, 73, 94

Bakst, Alvin A. (with Costas-Durieux, Jaime, Goldberg, Harry, and Bailey, Charles P.) Protection of heart by arterialization of coronary sinus. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, 433
II. Coronary flow in dogs with aorticocoronary sinus anastomosis, 442

Ballistocardiography, torsion, in cardiovascular surgical patients (Kittle, Reissmann, Dimond, and Schafer), 107

Barba, Philip S. (with Gallager, H. Stephen, and Stayman, Joseph W., Jr.) Inclusion disease of infancy, 222

Barrett, Raymond J. (with Masaki, Mikio, and Day, J. C.) Circulatory status of resected tuberculous pulmonary lobes, 277

Beattie, Edward J., Jr. Discussion of parasympathetic denervation of lung, 61

Beirne, Michael F. (with Berkheiser, Samuel W.) Benign epicardial cyst, case report, 603

Berkheiser, Samuel W. (with Beirne, Michael F.) Benign epicardial cyst, case report, 603

Björk, Viking Olov (with Hilty, Henry John) Arterial oxygen and carbon dioxide tension during the postoperative period in cases of pulmonary resections and thoracoplasties, 455
Change in arterial oxygen and carbon dioxide tension during voluntary hyperventilation as test of lung function, 541

Blades, Brian (with McCorkle, Robert G., Jr. Case of spontaneous regression of untreated bronchiogenic carcinoma, 415

Blastomycosis, pulmonary, influence of immunologic findings on selection of patients for operation (Sealy, Collins, and Menefee), 238

Blood loss and its replacement in thoracic surgery (Cole and Lougheed), 402
Bolton, Houck E. (with Bailey, Charles P., Costas-Durieux, Jaime, and Gemeinhardt, William) Cardioscopy, simple and practical, 323
Bowers, Warner F. (with Pixley, Charles C., and Piper, Clinton A.) Benign cystic thymoma, 373
Bradshaw, H. H. (with Ward, D. E., Jr., and and Prince, Thomas C., Jr.) Bronchial adenoma in children—case report of 7-year-old boy, 295
Brizzolara, Louis G. (with Geraci, Charles L.) Use of thoracoscope in diagnosis of certain intrathoracic neoplasms, 266
Bronchial adenoma in children, case report of 7-year-old boy (Bradshaw, Ward, and Prince), 295
  artery circulation in etiology of pulmonary and pericardial suppuration (Hahn, Holman, and Frerichs), 121
  catheterization, lung abscess and (Metras and Charpin), 157
  resection and anastomosis (Gravel), 244
  stump extramucous closure of, with clips, experimental study (Pego Busto and Bucherl), 285
  suture material, braided tantalum as, experimental and clinical observations (Keyes), 291
Bronchiectasis, pathogenesis of, experimental study and anatomic findings (Croxatto and Lanari), 514
Bronchiogenic carcinoma, untreated, case of spontaneous regression of, (Blades and McCorkle), 415
    statistical review of 234 autopsies (Engelman and McNamara), 227
Bronchopulmonary sarcoma (Iverson), 130
Bronchospirometry, new catheter for, which combines advantages of double lumen and single lumen catheters, (Croce), 187
  with Carlens double lumen catheter (Inada, Kishimoto, Sato, and Watanabe), 173
Bronchus, papilloma of, case report (Ashmore), 293
Bucherl, E. S. (with Pego Busto, Armando) Extramucous closure of bronchial stump with clips, 285

C

Carbon dioxide in anesthetic atmospheres as measured by Liston-Becker (infrared absorption) gas analyzer (Siebecker, Mendenhall, and Emanuel), 468
    tension arterial oxygen and, during postoperative period in cases of pulmonary resections and thoracoplasties (Björk and Hilty), 455
      change in arterial oxygen and, during voluntary hyperventilation as test of lung function, (Björk and Hilty), 541
Cardiac surgery, corrective, use of direct pressure measurement at operating table to evaluate acute results of, (Zimmerman and Kay), 425
    under hypothermia (Bailey, Cookson, Downing, and Neptune), 73
Cardiopexy in treatment of coronary artery disease, fourteen years' experience with (Thompson and Plachta), 64
Cardioscopy, simple and practical (Bolton, Bailey, Costas-Durieux, and Gemeinhardt), 323
Cardiovascular surgical patients, torsion ballistocardiography in (Kittle, Reissmann, Dimond, and Schafer), 107
Carlens double lumen catheter, bronchospirometry with (Inada, Kishimoto, Sato, and Watanabe), 173
Carr, Duane. Discussion of enzymatic débridement, 54
Carter, Max G. Discussion of parasympathetic denervation of lung, 63
Catheter, bronchospirometry with Carlens double lumen (Inada, Kishimoto, Satô, and Watanabe), 173
  for bronchospirometry which combines advantages of double lumen and single lumen catheters (Croce), 187
  in heart catheterization, intracardiac knotting of (Johansson, Malmstrom, and Uggla), 605
Catheterization, bronchial, lung abscess and, (Metras and Charpin), 157
Cavernostomy, effect on giant pulmonary cavities, report of 28 cases (Stephanopoulos and Tsimonos), 546
Charpin, J. (with Metras, H.) Lung abscess and bronchial catheterization, 157
Children, bronchial adenoma in, case report of 7-year-old boy (Ward, Bradshaw, and Prince) 295
Chylothorax, traumatic, rationale and new surgical technique in, (Seaman), 529
Circulatory status of resected tuberculous pulmonary lobes (Barrett, Masaki, and Day), 277
Clagett, O. Theron (with Kunkel, W. Minster, Jr., and McDonald, John R.) Mediastinal granulomas, 565
Clark, P. LeMon, III (with McBurney, Robert P., Hedberg, Gustaf A., Jampolis, Robert W., and Krueger, Victor R.) Complications associated with resective operations for pulmonary tuberculosis, 330
Coddington, Frederick L. One-stage thoracoplasty using Trapp adhesive hemicast, 623
Cole, Francis H. (with Lougheed, J. C.) Blood loss and its replacement in thoracic surgery, 402
Collins, J. P. (with Sealy, W. C., and Menefee, E. E.) Pulmonary blastomycosis, influence of immunologic findings on selection of patients for operation, 238

Cookson, Brian A. (with Bailey, Charles P., Downing, Daniel F., and Neptune, Wilford B.) Cardiac surgery under hypothermia, 73
Cooley, Denton. Discussion of reinforcement of aortic aneurysms by wrapping, 43
(with McNamara, Dan G.) Pulmonary telangiectasia, report of case proved by pulmonary biopsy, 614
Coronary sinus, protection of heart by arterialization of. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, (Bakst, Costas-Durieux, Goldberg, Bailey), 433
II. Coronary flow in dogs with aorticocoronary sinus anastomosis (Bakst, Costas-Durieux, Goldberg, Bailey), 442
Corpe, R. F. (with Parr, Luther H.) Pulmonary torulosis complicating pulmonary tuberculosis treated by resection, 392
Costas-Durieux, Jaime (with Bakst, Alvin A., Goldberg, Harry and Bailey, Charles P.) Protection of heart by arterialization of coronary sinus. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, 433
II. Coronary flow in dogs with aorticocoronary sinus anastomosis, 442
(with Bolton, Houck E., Bailey, Charles P., and Gemeinhardt, William) Cardioscopy, simple and practical, 323
Croce, Pietro. New catheter for bronchospirometry which combines advantages of double lumen and single lumen catheters, 187
Croxatto, Oscar D. (with Lanari, Alfredo) Pathogenesis of bronchiectasis, experimental study and anatomic findings, 514
Crowe, G. Gordon. Congenital cystic lung, successful pneumonectomy in 3-week-old baby, 399
Crutcher, Richard R. (with Plott, Carol L.) Mediastinal lipoma, successful removal of eight pound, one ounce (3,657 grams) tumor, 261
Cryptococcosis of lung, report of two cases with successful treatment by lobectomy (Poppe), 608
Cyst, benign epicardial (Beirne and Berkheiser), 603
Cystic hygroma of neck arising after thoracoplasty (Rothstein, Emil, and Gall), 103
lung, congenital, successful pneumonectomy in 3-week-old baby (Crowe), 399
thymoma, benign (Pixley, Piper, and Bowers), 373

D

Deaton, W. Ralph, Jr. Simplified thoracic suction unit, 390
DeCamp, Paul T. (with Baffes, Thomas G., and Schlotterbeck, Phyllis) Comparison of thoracoplasty and resection therapy in pulmonary tuberculosis, 349
Denervation of lung, parasympathetic, effect on pulmonary artery pressure, experimental study of, (Kaunitz and Andersen), 55
Desoxyribonuclease and trypsin in control of cough and sputum associated with tuberculosis, in enzymatic débridement (Farber, Gorman, Wood, Grimes, and Pharr), 45
Diaphragm, hiatus hernia of, problem of, (Lam and Kenney), 1
Diaphragmatic hernia in infant, unusual case of (Hausmann and Salter), 190
Dimond, E. Grey (with Kittle, C. Frederick, Reissmann, Kurt R. and Schafer, Paul W.) Torsion ballistocardiography in cardiovascular surgical patients, 107
Diverticula of esophagus (Johansson and Michas), 361
Donald, David E. (with Kirklin, John W.) Experimental production of progressive pulmonic stenosis, 149
Downing, Daniel F. (with Bailey, Charles P., Cookson, Brian A., and Neptune, Wilford B.) Cardiac surgery under hypothermia, 73

E

Emanuel, Dean A. (with Siebecker, Karl L., and Mendenhall, John T.) Carbon dioxide in anesthetic atmospheres as measured by Liston-Becker (infrared absorption) gas analyzer, 468
Emphysema, localized pulmonary hypertrophic (Henry), 197
Endobronchial hamartoma, report of two cases (Young, Jones, Hughes, Foley, and Fox), 300
Engelman, Raymond M. (with McNamara, William L.) Bronchiogenic carcinoma, statistical review of 234 autopsies, 227
Enzymatic débridement, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis (Farber, Gorman, Wood, Grimes and Pharr), 45
Epicardial cyst, benign (Beirne and Berkheiser), 603
Esophagotracheobronchial fistula, acquired nonmalignant (Hughes and Fox), 384
Esophagus, diverticula of (Johansson and Michas), 361
muscle wall tumors of (Sweet, Soutter, and Tejada), 13
upper, problem of far-advanced malignancy in (Sanger), 407
Extramucous closure of bronchial stump with clips, experimental study (Pego Busto and Bucherl), 285

F

Farber, Seymour M. (with Gorman, R. Daniel, Wood, David A., Grimes, Orville F., and Pharr, Samuel L.) Enzymatic débridement, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis, 45, 54

Fiberglas in pulmonary tuberculosis, use of (Judd, Szypulski, and Kopernik), 581

Fistula, acquired nonmalignant esophagotracheobronchial (Hughes and Fox), 384

Foley, Francis E. (with Fox, John R., Jr., Young, J. M., Jones, Elise, and Hughes, Felix A.) Endobronchial hamartoma, report of two cases, 300

Forster, E. (with Sichel, D., and Roegel, E.) Transversoaxial tomography as valuable help in estimation of operability of pulmonary cancer, 593

Fox, John R., Jr. (with Hughes, Felix A., Jr.) Acquired nonmalignant esophagotracheobronchial fistula, 384

(with Hughes, Jr., Felix A., and Sutliff, Wheelan D.) Nonspecific lung abscess, experience with fifty-five consecutive cases, 255

(with Young, J. M., Jones, Elise, Hughes, Felix A., and Foley, Francis E.) Endobronchial hamartoma, report of two cases, 300

French, S. W., III. Protective jacket for postoperative pectus excavatum patient, 540

Frerichs, John B. (with Hahn, Richard S., and Holman, Emile) Role of bronchial artery circulation in etiology of pulmonary and pericardial suppuration, 121

G

Gall, Edward B. (with Rothstein, Emil) Cystic hygroma of neck arising after thoracoplasty, 103

Gallager, H. Stephen (with Stayman, Joseph W., Jr., and Barba, Philip S.) Inclusion disease of infancy, 222

Garlock, John H.: Discussion of muscle wall tumors of esophagus, 32

Gemeinhardt, William (with Bolton, Houck E., Bailey, Charles P., and Costas-Durieux, J.) Cardioscopy, simple and practical, 323

Geraci, Charles L. (with Brizzolara, Louis G.) Use of thoracoscope in diagnosis of certain intrathoracic neoplasms, 266

Goldberg, Harry (with Bakst, Alvin A., Costas-Durieux, Jaime, and Bailey, Charles P.) Protection of heart by arterialization of coronary sinus. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, 433

Goldberg—Cont'd

II. Coronary flow in dogs with aorticocoronary sinus anastomosis, 442

Gorman, R. Daniel (with Farber, Seymour M., Wood, David A., Grimes, Orville F., and Pharr, Samuel L.) Enzymatic débridement, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis, 45

Granuloma of larynx, bilateral, due to intratracheal anesthesia (Melick, Urry, and McAdams), 210

Granulomas, mediastinal (Kunkel, Clagett, and McDonald), 565

Gravel, J. A. Bronchial resection and anastomosis, 244

Grimes, Orville F. (with Farber, Seymour M., Gorman, R. Daniel, Wood, David A., and Pharr, Samuel L.) Enzymatic débridement, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis, 45

(with Weirich, William, and Stephens, H. Brodie) Primary lymphosarcoma of lung, report of 2 cases, 378

H

Hahn, Richard S. (with Holman, Emile, and Frerichs, John B.) Role of bronchial artery circulation in etiology of pulmonary and pericardial suppuration, 121

Hamartoma, endobronchial, report of two cases (Young, Jones, Hughes, Foley, and Fox), 300

Hanlon, Rollins. Discussion of management of dangerously torn auricle, 102

Harrison, Charles S. (with Steinberg, Israel, and O'Sullivan, Ward D.) Persistence of left superior vena cava with coarctation of aorta, 575

Hausmann, Paul F. (with Salter, Robert K.) Unusual case of bilateral diaphragmatic hernia in infant, 190

Heart catheterization, intracardiac knotting of catheter in (Johansson, Malmstrom, and Uggla), 605

protection of, by arterialization of coronary sinus. I. Coronary collateral flow in normal dogs and in dogs having had previous nondescript cardiac surgery, (Bakst, Costas-Durieux, Goldberg, and Bailey), 433

II. Coronary flow in dogs with aorticocoronary sinus anastomosis (Bakst, Costas-Durieux, Goldberg, and Bailey), 442

Hedberg, Gustaf A. (with McBurney, Robert P., Jampolis, Robert W., Clark, P. LeMon, III, and Krueger, Victor R.) Complications associated with resective operations for pulmonary tuberculosis, 330

Henry, William. Localized pulmonary hypertrophic emphysema, 197
Hiatus hernia of diaphragm, problem of (Lam and Kenney), 1
problem of diagnosis (Palmer), 271
Higginson, John F. Discussion of muscle wall tumors of esophagus, 31
Hilty, Henry John (with Björk, Viking Olov) Arterial oxygen and carbon dioxide tension during postoperative period in cases of pulmonary resections and thoracoplasties, 455
(with Björk, Viking Olov) Change in arterial oxygen and carbon dioxide tension during voluntary hyperventilation as test of lung function, 541
Hiltz, J. E. (with Holden, H. M., Quinlan, J. J., and Schaffner, V. D.) Pregnancy and tuberculosis, report of 10 cases treated by major thoracic surgery, 315
Himmelstein, Aaron. Discussion of parasympathetic denervation of lung, 62
Holden, H. M. (with Quinlan, J. J., Schaffner, V. D., and Hiltz, J. E.) Pregnancy and tuberculosis, report of 10 cases treated by major thoracic surgery, 315
Holman, Emile (with Hahn, Richard S., and Frerichs, John B.) Role of bronchial artery circulation in etiology of pulmonary and pericardial suppuration, 121
Hopkins, William A. Discussion of reinforcement of aortic aneurysms by wrapping, 43
Horvath, Steven M. (with MacCanon, D. M.) Variations in pulmonary vascular pressures, 204
Hughes, Felix A., Jr. (with Fox, John R., Jr.) Acquired nonmalignant esophagotracheobronchial fistula, 384
(with Fox, John R., Jr., and Stuliff, Wheelan D.) Nonspecific lung abscess, experience with fifty-five consecutive cases, 255
(with Young, J. M., Jones, Elise, Foley, Francis E., and Fox, John R., Jr.) Endobronchial hamartoma, report of two cases, 300
Humphreys, George H. Discussion of reinforcement of aortic aneurysms by wrapping, 43
Hypothermia, cardiac surgery under (Bailey, Cookson, Downing, and Neptune), 73

I

Inada, K. (with Kishimoto, S., Satô, A., Watanabe, T.) Bronchospirometry with Carlens double lumen catheter, 173
(with Satô, A., Kishimoto, S., and Tanabe, G.) Evaluation of extrapleural pneumonolysis with filling with plastic balls, analytic studies on 63 patients from whom plastic balls were removed, 503
Infancy, inclusion disease of (Gallager, Stayman, and Barba), 222
Iverson, Lalla. Bronchopulmonary sarcoma, 130

J

Jacket, protective, for postoperative pectus excavatum patient (French), 540
Jampolis, Robert W. (with McBurney, Robert P., Hedberg, Gustaf A., Clark, P. LeMon, III, and Krueger, Victor R.) Complications associated with resective operations for pulmonary tuberculosis, 330
Janes, Robert M. Discussion of muscle wall tumors of esophagus, 34
Discussion of problem of hiatus hernia of diaphragm, 12
Jarvis, Fred J. (with Kanar, Edmund A.) Physiologic changes following obstruction of superior vena cava, report of clinical case and experimental studies, 213
Johansson, L. (with Malmström, G., and Uggla, L. G.) Intracardiac knotting of catheter in heart catheterization, 605
(with Michas, P.) Diverticula of esophagus, study of seventeen cases, 361
Johnson, E. K. Discussion of problem of hiatus hernia of diaphragm, 11
Jones, Elise (with Young, J. M., Hughes, Felix A., Foley, Francis E., and Fox, John R., Jr.) Endobronchial hamartoma, report of two cases, 300
Judd, A. R. (with Szypulski, John, and Kopernik, Francis) Use of fiberglas in pulmonary tuberculosis, 581

K

Kanar, Edmund A. (with Jarvis, Fred J.) Physiologic changes following obstruction of superior vena cava, report of clinical case and experimental studies, 213
Kaplan, Samuel. Discussion of cardiac surgery under hypothermia, 92
Kaunitz, Victor H. (with Andersen, Murray N.) Experimental study of effect of parasympathetic denervation of lung on pulmonary artery pressure, 55, 63
Kay, Earle B. Discussion of problem of hiatus hernia of diaphragm, 12
(with Zimmerman, Henry A.) Use of direct pressure measurement at operating table to evaluate acute results of corrective cardiac surgery, 425
Kenney, Leo J. (with Lam, Conrad R.) Problem of hiatus hernia of diaphragm, 1
Kenney, Leo J. Discussion of muscle wall tumors of esophagus, 34

Keyes, Thomas F. Braided tantalum as a bronchial suture material, experimental and clinical observations, 291
Kirklin, John W. (with Donald, David E.) Experimental production of progressive pulmonic stenosis, 149
(with Mears, Thomas W., and Woolner, Lewis B.) Fate of patients with alveolar-cell tumor of lungs, 420
Kishimoto, S. (with Inada, K., Satô, A., and Tanabe, G.) Evaluation of extrapleural pneumonolysis with filling with plastic balls, analytic studies on 63 patients from whom plastic balls were removed, 503
(with Inada, K., Satô, A., and Watanabe, T.) Bronchospirometry with Carlens double lumen catheter, 173
Kittle, C. Frederick (with Reissmann, Kurt R., Dimond, E. Grey, and Schafer, Paul W.) Torsion ballistocardiography in cardiovascular surgical patients, 107
Kopernik, Francis (with Judd, A. R., and Szypulski, John) Use of fiberglas in pulmonary tuberculosis, 581
Krech, William G. (with Storey, Clifford F., and Umiker, William C.) Thymic cysts, review of literature and report of two cases, 477
Krueger, Victor R. (with McBurney, Robert P., Hedberg, Gustaf A., Jampolis, Robert W., and Clark, P. LeMon, III) Complications associated with resective operations for pulmonary tuberculosis, 330
Kunkel, W. Minster, Jr. (with Clagett, O. Theron, and McDonald, John R.) Mediastinal granulomas, 565
Kuthy Porter, José (with Pacheco, Carlos R., and Rivero, Octavio) Experimental reconstructive surgery of trachea, 554

L

Lam, Conrad R. Discussion of cardiac surgery under hypothermia, 93
(with Kenney, Leo J.) Problem of hiatus hernia of diaphragm, 1, 12
Lambert, Adrian. Discussion of cardiac surgery under hypothermia, 94
Landis, F. B. (with Weisel, Wilson) Comparative study of pulmonary function loss, thoracoplasty versus small resection in surgery of tuberculosis, 336
Lewis, F. J. Discussion of cardiac surgery under hypothermia, 91
Lipoma, Mediastinal, successful removal of eight pound one ounce (3,657 grams) tumor (Crutcher and Plott), 261
Liston-Becker (infrared absorption) gas analyzer, carbon dioxide in anesthetic atmospheres as measured by (Siebecker, Mendenhall, and Emanuel), 468
Lomasney, Thomas L. (with Swann, William K., and Rodriguez-Arroyo, Jorge) Management of dangerously torn auricle, 96
Lougheed, J. C. (with Cole, Francis H.) Blood loss and its replacement in thoracic surgery, 402
Lumen, catheter, Carlens double, bronchospirometry with (Inada, Kishimoto, Satô, and Watanabe), 173
new, for bronchospirometry, which combines advantages of double and single lumen (Croce), 187
Lanari, Alfredo (with Croxatto, Oscar D.) Pathogenesis of bronchiectasis, experimental study and anatomic findings, 514
Lung abscess and bronchial catheterization (Metras and Charpin), 157
nonspecific, experience with fifty-five consecutive cases (Fox, Hughes, and Sutliff), 255
cryptococcosis of, report of two cases with successful treatment by lobectomy (Poppe), 608
function, change in arterial oxygen and carbon dioxide tension during voluntary hyperventilation as test of (Björk and Hilty), 541
parasympathetic denervation of, effect on pulmonary artery pressure, experimental study of (Kaunitz and Andersen), 55

M

McAdams, John B. (with Melick, Dermont W., and Urry, Audrey G.) Bilateral granuloma of larynx due to intratracheal anesthesia, 210
McBurney, Robert P. (with Hedberg, Gustaf A., Jampolis, Robert W., Clark, P. LeMon, III, and Krueger, Victor R.) Complications associated with resective operations for pulmonary tuberculosis, 330
MacCanon, D. M. (with Horvath, Steven M.) Variations in pulmonary vascular pressures, 204
McCorkle, Robert G., Jr. (with Blades, Brian) Case of spontaneous regression of untreated bronchiogenic carcinoma, 415
McDonald, John R. (with Kunkel, W. Minster, Jr., and Clagett, O. Theron) Mediastinal granulomas, 565
McNamara, Dan G. (with Cooley, Denton A.) Pulmonary telangiectasia: Report of case proved by pulmonary biopsy, 614
McNamara, William L. (with Engelman, Raymond M.) Bronchiogenic carcinoma, statistical review of 234 autopsies, 227
Malstrom, G. (with Johansson, L., and Uggla, L. G.) Intracardiac knotting of catheter in heart catheterization, 605

Martin, Frank E. (with Stead, William W., and Middlebrook, John) Practical physical method for detection of early respiratory acidosis during thoracic surgery, 306
Masaki, Mikio (with Barrett, Raymond J., and Day, J. C.) Circulatory status of resected tuberculous pulmonary lobes, 277
Meade, Richard H. Discussion of muscle wall tumors of esophagus, 31
Mears, Thomas W. (with Kirklin, John W., and Woolner, Lewis B.) Fate of patients with alveolar-cell tumor of lungs, 420
Mediastinal granulomas (Kunkel, Clagett, and McDonald), 565
lipoma, successful removal of eight pound one ounce (3,657 grams) tumor, (Crutcher and Plott), 261
lipomas and thymus, relationship between (Rubin and Mishkin), 494
tumor, dilatation of major azygos vein simulating (Schmidt), 251
Melick, Dermont W. (with Urry, Audrey G., and McAdams, John B.) Bilateral granuloma of larynx due to intratracheal anesthesia, 210
Mendenhall, John T. (with Siebecker, Karl L., and Emanuel, Dean A.) Carbon dioxide in anesthetic atmospheres as measured by Liston-Becker (infrared absorption) gas analyzer, 468)
Menefee, E. E. (with Sealy, W. C., and Collins, J. P.) Pulmonary blastomycosis, influence of immunologic findings on selection of patients for operation, 238
Method for detection of early respiratory acidosis during thoracic surgery, practical physical (Stead, Martin, and Middlebrook), 306
Metras, H. (with Charpin, J.) Lung abscess and bronchial catheterization, 157
Michas, P. (with Johansson, L.) Diverticula of esophagus, study of seventeen cases, 361
Middlebrook, John (with Stead, William W., and Martin, Frank E.) Practical physical method for detection of early respiratory acidosis during thoracic surgery, 306
Mishkin, Sidney (with Rubin, Morris) Relationship between mediastinal lipomas and thymus, 494
Moersch, Herman. Discussion of muscle wall tumors of esophagus, 33
Muller, William H. Discussion of cardiac surgery under hypothermia, 92
Muscle wall tumors of esophagus (Sweet, Soutter, and Tejada), 13

N

Neoplasms, intrathoracic, use of thoracoscope in diagnosis of (Geraci and Brizzolara), 266
Neptune, Wilford B. (with Bailey, Charles P., Cookson, Brian A., and Downing, Daniel F.) Cardiac surgery under hypothermia, 73

O

Obstruction of superior vena cava, physiologic changes following, report of clinical case and experimental studies (Jarvis and Kanar), 213
O'Sullivan, Ward D. (with Steinberg, Israel, and Harrison, Charles S.) Persistence of left superior vena cava with coarctation of aorta, 575
Oxygen, arterial, and carbon dioxide tension during postoperative period in cases of pulmonary resections and thoracoplasties (Björk and Hilty), 455
and carbon dioxide tension change in, during voluntary hyperventilation, as test of lung function (Björk and Hilty), 541

P

Pacheco, Carlos R. (with Rivero, Octavio, and Kuthy Porter, José) Experimental reconstructive surgery of trachea, 554
Palmer, Eddy D. Hiatus hernia, problem of diagnosis, 271
Papilloma of bronchus, case report (Ashmore), 293
Parr, Luther H. (with Corpe, R. F.) Pulmonary torulosis complicating pulmonary tuberculosis treated by resection, 392
Pectus excavatum patient, postoperative, protective jacket for (French), 540
Pego Busto, Armando (with Bucherl, E. S.) Extramucous closure of bronchial stump with clips, 285
Pericardial suppuration, role of bronchial artery circulation in etiology of pulmonary (Hahn, Holman, and Frerichs), 121
Pharr, Samuel L. (with Farber, Seymour M., Gorman, R. Daniel, Wood, David A., and Grimes, Orville F.) Enzymatic débridement, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis, 45
Physiological changes following obstruction of superior vena cava, report of clinical case and experimental studies (Jarvis and Kanar), 213
Piper, Clinton A. (with Pixley, Charles C., and Bowers, Warner F.) Benign cystic thymoma, 373
Pixley, Charles C. (with Piper, Clinton A., and Bowers, Warner F.) Benign cystic thymoma, 373
Plachta, Aaron (with Thompson, Samuel A.) Fourteen years' experience with cardiopexy in treatment of coronary artery disease, 65

Plastic balls, evaluation of extrapleural pneumonopolysis with filling with, analytic studies on 63 patients from whom plastic balls were removed (Inada, Satô, Kishimoto, and Tanabe), 503
Plott, Carol L. (with Crutcher, Richard R.) Mediastinal lipoma, successful removal of eight pound one ounce (3,657 grams) tumor, 261
Pneumonectomy, successful, in 3-week-old baby with congenital cystic lung (Crowe), 399
Pneumonolysis, extrapleural, with filling with plastic balls, evaluation of, analytic studies on 63 patients from whom plastic balls were removed (Inada, Satô, Kishimoto and Tanabe), 503
Poppe, J. Karl. Cryptococcosis of lung, report of two cases with successful treatment by lobectomy, 608
Discussion of parasympathetic denervation of lung, 62
Reinforcement of aortic aneurysms by wrapping, 36, 44
Pregnancy and tuberculosis, report of 10 cases treated by major thoracic surgery (Holden, Quinlan, Schaffner, and Hiltz), 315
Pressure measurement, direct, use of, at operating table to evaluate acute results of corrective cardiac surgery (Zimmerman and Kay), 425
Prince, Thomas C., Jr. (with Ward, D. E., Jr., and Bradshaw, H. H.) Bronchial adenoma in children, case report of a 7-year-old boy, 295
Pulmonary and pericardial suppuration, role of bronchial artery circulation in etiology of (Hahn, Holman, and Frerichs), 121
artery pressure, effect of parasympathetic denervation of lung, experimental study of (Kaunitz and Andersen), 55
blastomycosis, influence of immunologic findings on selection of patients for operation (Sealy, Collins, and Menefee), 238
cancer, transversoaxial tomography as valuable help in estimation of operability of (Forster, Sichel and Roegel), 593
cavities, giant, effect of cavernostomy on, report of 28 cases (Stephanopoulos and Tsimonos), 546
function loss, comparative study of, thoracoplasty versus small resection in surgery of tuberculosis (Landis and Weisel), 336
hypertrophic emphysema, localized (Henry), 197
lobes, resected tuberculous, circulatory status of (Barrett, Masaki, and Day), 277
resections and thoracoplasties, arterial oxygen and carbon dioxide tension during postoperative period in cases of (Björk and Hilty), 455
Pulmonary—Cont'd
telangiectasia, report of case proved by pulmonary biopsy (Cooley, and McNamara), 614
torulosis complicating pulmonary tuberculosis treated by resection (Corpe and Parr), 392
tuberculosis, comparison of thoracoplasty and resection therapy in (Baffes, Schlotterbeck, and DeCamp), 349
complications associated with resective operations for (McBurney, Hedberg, Jampolis, Clark and Krueger), 330
use of fiberglas in (Judd, Szypulski, and Kopernik), 581
vascular pressures, variations in (Horvath and MacCanon), 204
Pulmonic stenosis, progressive, experimental production of (Donald and Kirklin), 149

T

Tanabe, G. (with Inada, K., Satô, A., and Kishimoto, S.) Evaluation of extrapleural pneumonolysis with filling with plastic balls, analytic studies on 63 patients from whom plastic balls were removed, 503

Tantalum, braided, as bronchial suture material, experimental and clinical observations (Keyes), 291

Tejada, Carlos (with Sweet, Richard H., and Soutter, Lamar) Muscle wall tumors of esophagus, 13

Telangiectasia, pulmonary, report of case proved by pulmonary biopsy (Cooley and McNamara), 614

Thompson, Samuel A. (with Plachta, Aaron) Fourteen years' experience with cardiopexy in treatment of coronary artery disease, 64, 72

Thoracic suction unit, simplified (Deaton), 390

Thoracoplasties, pulmonary resections and, arterial oxygen and carbon dioxide tension during postoperative period in cases of (Björk and Hilty), 455

Thoracoplasty and resection therapy in pulmonary tuberculosis, comparison of (Baffes, Schlotterbeck, and DeCamp), 349
cystic hygroma of neck arising after (Rothstein and Gall), 103
one-stage, using Trapp adhesive hemicast (Coddington), 623
versus small resection in surgery of tuberculosis, comparative study of pulmonary function loss (Landis and Weisel), 336
Thoracoscope in diagnosis of certain intrathoracic neoplasms, use of (Geraci and Brizzolara), 266
Thymic cysts, review of literature and report of two cases (Krech, Storey, and Umiker), 477
Thymoma, benign cystic (Pixley, Piper, and Bowers), 373
Thymus, relationship between mediastinal lipomas and (Rubin and Mishkin), 494
Tomography as valuable help in estimation of operability of pulmonary cancer, transversoaxial (Forster, Sichel, and Roegel), 593
Touroff, Arthur S. W. Correspondence, 322
Trachea, experimental reconstructive surgery of (Pacheco, Rivero, and Kuthy Porter), 554
Transversoaxial tomography as valuable help in estimation of operability of pulmonary cancer (Forster, Sichel, and Roegel), 593
Trapp adhesive hemicast, one-stage thoracoplasty using (Coddington), 623
Trypsin and desoxyribonuclease in control of cough and sputum associated with tuberculosis, particular reference to, in enzymatic débridement (Farber, Gorman, Wood, Grimes, and Pharr), 45
Tsimonos, T. (with Stephanopoulos, C.) Effect of cavernostomy on giant pulmonary cavities, report of 28 cases, 546
Tuberculosis, particular reference to trypsin and desoxyribonuclease in control of cough and sputum associated with, in enzymatic débridement (Farber, Gorman, Wood, Grimes, and Pharr), 45
pregnancy and, report of 10 cases treated by major thoracic surgery (Holden, Quinlan, Schaffner, and Hiltz), 315
thoracoplasty versus small resection in surgery of, comparative study of pulmonary function loss (Landis and Weisel), 336
use of fiberglas in pulmonary (Judd, Szypulski, and Kopernik), 581
Tuberculous pulmonary lobes, resected, circulatory status of (Barrett, Masaki, and Day), 277
Tumors, muscle wall, of esophagus (Sweet, Soutter and Tejada), 13
